JOINING AN INSPIRATIONAL TEAM

I have benefited greatly from the content that TED and TEDx has created since 2009. And now I want to give back. The values of TEDx align strongly with my own and I look forward eagerly to joining a diverse team of "ideas worth spreading."

EXPERIENCE

Imprint Publications · Waterloo, ON · January 2014 - December 2015

Take, edit and design newspaper photography

Head Photo Editor

I had previously been the assistant photo editor before being promoted to head photo editor because I was already doing all the work. My responsibilities included delegating photo assignments, taking photos, editing photos, coordinating with designers, and delivering a great paper.

Imprint Publications received 3rd place in its category at the Ontario Newspaper Awards with the highest scores in photography.

PROJECTS

Mike the Barber

I created a promotional video for Mike the Barber on a tight budget and short timescale. We used the school's studio to film and only the equipment I own to produce a video that the client really liked.

I used my Canon t3i, Tamron 28-75 f/2.8, monopod, and tabletop dolly to shoot the film. And I used Adobe Premiere and After Effects to edit it.
