EXPERIENCE

Imprint Publications • Waterloo, ON

January 2014 - December 2014

Head Photo Editor & Photographer

As the Photo Editor of the University of Waterloo's student newspaper, I curated the photos used in print and online, organized and delegated work with other photographers on the team, and made sure that only the most representative and highest quality photos were published in print and online. I also took many of the photos myself.

I learned to work under pressure and deadlines.

FREELANCE PHOTOGRAPHY / VIDEOGRAPHY

LA Lifestyle/Fashion Photoshoot

Within one week I put together a team of clothing, swimsuit, and accessory designers, four models, and a makeup artist on my own in order to pull off a lifestyle and fashion photo shoot.

My experience recruiting and organizing people at Imprint kept me level-headed and I executed the shoot smoothly.

Mike the Barber

I produced a promotional video for Mike the Barber under tight equipment and time constraints. Despite only having a single model and limited time, the result was visually interesting.

UW Retail Services

I photographed product, fashion, and promotional work for the University of Waterloo Retail Services twice. Many of those photos are still used in posters and promotional material around the UW campus.

EDUCATION

BA Psychology, Computer Science Minor
