EXPERIENCE

Imprint Publications • Waterloo, ON • January 2014 - December 2015

Photo Editor/Photographer

I contributed as a photographer, became Assistant Photo Editor the next term, and then the Head Photo Editor the term after. I made sure the quality of photos printed in the weekly paper were of a high standard and enhanced the stories they represented.

I have experience in both being in a team and leading one, recruiting volunteers, and handling high stress time constraints.

FREELANCE PHOTOGRAPHY/VIDEOGRAPHY

UW Retail Services

I produced product, fashion, and promotional photography for UW Retail Services several times in 2013. Many of those photos can still be seen on posters around campus.

I had to work with a large number of volunteer models and products to create a comprehensive volume of work that Retail Services still pulls from.

Mike the Barber Video

I produced a promotional video for Mike the Barber in 2015 under equipment and time constraints. Despite only one model showing up, we were able to produce a visually interesting movie that portrayed Mike in the best light.

You can watch the video here <http://juil.me/video>

LA Lifestyle/Fashion Photoshoot

Within one week I was able to connect with a clothing, accessory, and swimsuit designer; recruit 4 models and a stylist; and organize a photoshoot in Los Angeles to produce a great set of photos showcasing the clothes and models.

Organizing so many people on my own was difficult, but I was able to improvise on the day to make the most of the time I had with each of them.

EDUCATION

BA Psychology

University of Waterloo • Waterloo, ON • 2015

SKILLS

Adobe CC • Premiere • After Effect • Audition • Photoshop • Video Production • Production
Lighting • Camera Operation • Scripting • Japanese
